

Livo™

fusion furniture
for living offices

work + life

With the increasing trend of swanky offices with global look-n-feel, it is a balancing act to address the functional aspects of workspaces and create an environment where people feel comfortable and inspired to work. Offices spaces are no more a roof over head with a wooden desk meant to spend 8 hours of our day. We practically live in our offices spending more time than our homes literally. Be it undivided focus, collaborative team work, content creation or time to review - a workplace should be able to create an environment to facilitate these effortlessly.

LIVO is a fusion of desking + panel system designed for all work styles, creating an enriching ambience that enhances the way of working in new-age living offices.

#LivoTheWayYouWant

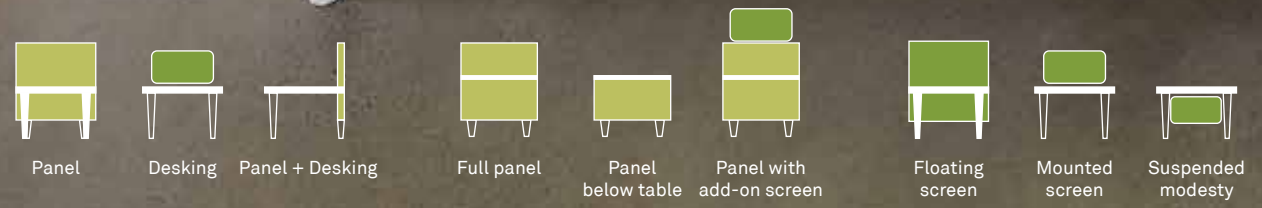

LIVO is adaptive to evolving workplaces and creating spaces we would love to work in. It is one system that offers unique combinations to accommodate different work styles required for diverse set of teams; creating a sense of absolute unification and visual harmony.

**adaptive +
absolute**

LIVO is a fusion furniture system in true sense. The innovative core structure can be a fusion of desking and panel system or can be used as an independent panel or desking system. The uniform aesthetics & handshake beam joinery merges these two systems together. This gives a flexibility to create a range of work environments and layout.

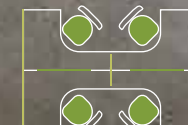

desking +
panel system

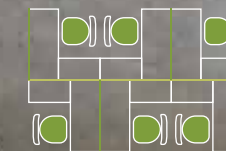

handshake cluster with wooden table top
+ floating fabric panel + inclined legs

Linear

Curvilinear

Hybrid

LIVO is a versatile system that can be upscaled to meet the evolving requisites of work patterns. LIVO offers you a varied number of permutations & combinations that can be achieved by adding or changing components like panel, screen and modesty. These simple changes can convert a workplace in a new form with a new function.

**form +
function**

benching with fabric screen
+ extended worktop

LIVO strikes the right balance that encourages individual expression and also caters to the needs and boundaries of a particular group. Individual desking solutions can be personalised to each user's needs, while accompanying tables bring groups together to share ideas. All of this with an exceptional design freedom and simplified storage-based planning that delineates boundaries while the extended worktops support interpersonal team collaboration.

**personal +
interpersonal**

+ glass screen + acrylic modesty
+ storage caddy

+ glass screen
+ wooden modesty
+ storage caddy

+ fabric screen
+ hang on white board
+ wooden modesty
+ pedestal storage

+ glass screen
+ removable return separator
+ aisle floating screen
+ storage caddy

**variety +
versatility**

50mm fabric panel + 25mm return panel
+ straight legs + pedestal storage

LIVO panels are designed and manufactured with unified construction. Panels are pre-assembled and pre-packaged with the panel frame elements and trims, promoting efficient installation. By using panels blocks instead of tiles, the workstation promises better stability. The beam serves as a structural spine and as an avenue for data and power to maximise office connectivity.

**simplification +
unification**

LIVO makes it possible to create highly individualistic office configurations throughout the workspace. It maintains the exclusive private functionality of cabins, yet addresses the inclusivity for team discussions. This gives the entire office a uniform visual harmony.

**inclusive +
exclusive**

LIVO offers workstation with long spans of width without visual break that add to the aesthetics, sleek return separators and screens for better privacy & concentrated working. The workspace can be expanded for collaborative working just by adding an extended table top for impromptu discussions.

**concentrate +
collaborate**

livo office landscape

- 1. managerial
- 2. conference
- 3. co-create

- 4. focused
- 5. project
- 6. functional

1. managerial

Suitably designed and configured for different management styles, whether in an open office space for better interaction with team members or to suit to private enclosed spaces needed for confidential work.

2. conference

Continuing the design language of the sleek understructure and legs, it is seamlessly extended into the conference room. Suited for small meeting rooms to large board rooms.

3. co-create

Predominantly suitable for creative workers who prefer to work in isolation yet need to come together for quick discussions.

4. focused

Understanding and supporting the need for focused individual workers with integrated cable management, higher privacy panels for better concentration.

5. project

Best suited for teams that work together with project-centric approach, for easy communication and collaboration, yet enabling focused work and privacy.

6. functional

Dynamic solution suited for members from the same department and those need limited collaboration but adjustable privacy and adequate storage space for documents.

The Livo system consists of material composition listed below:

MATERIALS

A typical Livo system weighs 136.7 kg* made from minimum number of components and different materials. Cardboard & LDPE plastic film are used for packaging.

PRODUCTION

Livo is manufactured at Wipro's Bangalore factory, certified with ISO 9001 and ISO 14001. Designed to be produced with minimal waste, energy consumption and environmental impact. Powder coating painting is RoHS certified and heavy metal free and glue usage is minimal. Therefore, it is easy to disassemble.

TRANSPORTATION

Livo system is packaged with minimal packaging thereby improving filling rates and requires less energy for shipping. So indirectly, Livo reduces the carbon foot print.

USAGE

Livo has passed the ANSI/BIFMA X5.5-2014 / X5.6-2016 which evaluates the safety, durability and structural performance of furniture products intended for use in commercial office.

END OF LIFE

Livo system is with a good % recyclable by weight. Materials used in Livo packaging are recyclable.

BIFMA stands for Business and Institutional Furniture Manufacturer's Association. BIFMA is a not-for-profit organisation that develops voluntary product and industry standards that support safe, healthy and sustainable environments. Wipro Furniture is a member of BIFMA and incorporates the latest trends and guidelines in furniture design and performance thus ensuring that the products are ergonomic in design and thereby offer good comfort and safety to users. LIVO passes BIFMA X5.5/X5.6 Standards.
