DYNAMICS OF NATURAL SEATING

There is much more to seating than most of us can make out. A simple sitting posture involves numerous muscles. Hence no one can sit for long in the same posture since these muscles soon tire out calling for a change in the posture.

Changes in natural posture help you stay comfortable and focused.

Entity chairs are ergonomically designed chairs with a soft cushioned seat, breathable and flexible mesh back rest that is a comforting marvel and promotes the natural dynamics of seating. It regulates reclining and encourages users to make frequent posture changes. This ensures the day long comfort as well as keeps you refreshed. Featuring adjustable arms, adjustable lumbar support and a breathable mesh back, Entity does it all !!

Just like you breathe, Entity allows your body to breathe just as naturally. It's mesh backrest allows your back to breathe and perspire. The close knit mesh gives uniform pressure to your back and supports the natural shape of your spine, significantly improving your seating comfort

NATURAL POSTURE, EXCEPTIONAL COMFORT

MESH

An exceptional polyester mesh with bi-directional tensile strength that will have your back.

MOULDED FRAME

Moulded frame in the entity chair will strengthen the chair as well as provide you with a comforting upper back and postural support.
